

CENTURY designs and manufactures a range of generic and customised production aids for efficient manufacturing processes, materials handling and packaging logistics.

Our production aids include:

- Stillages
- Racks
- Trolleys
- Work Benches

Assistance can also be provided for “In Line Sequencing” problems by different stillage designs, specialised trolleys and racks to enable products to be placed on the production line.

For transportation foam inserts and Corflute dividers can be provided to help keep items in a safe protective environment.

Please contact **CENTURY** for leasing options on all of our production aid equipment.
